OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,

Bangalore, 3rd April 1911

April 1911-10-1

My dear Sir,

With reference to our conversation the other evening, I beg to submit, in original, the application of B.S.Krishniengar, Proprietor, S.K.Weaving Factory, Mysore, for a loan of Rs.2,000/- and the official letter of the Deputy Commissioner, Mysore District, recommending its grant. The young man is carrying on a very useful industry on lines calculated to benefit some of the poorer inhabitants of Mysore and deserves the encouragement he asks for. Such a step will further the industrial progress of the Country and I strongly recommend it to the favourable consideration of Government. I have preferred to send this demi officially as I do not know how the Government will be disposed to view the formal submission of such proposals in the Revenue Department.

To
A. Rangaswamy Iyengar Esq., B.A. B.L.
REVENUE COMMISSIONER IN MYSORE.

Sir,

I have the honour to forward herewith the application of Mr B.S. Krishna Iyengar, Proprietor, Sree-Krishna Weaving Factory, Mysore, praying for a loan of Rs 2000/- from Government for enlarging his business and promising to liquidate it in 10 years at the rate of Rs 200/- per year and to state that I have great pleasure in recommending the prayer of

of the petitioner for favourable consideration of Government. He has been doing very useful work in this industry and his factory is an object lesson to the Weavers of this place.

I have asked Mr Krishna-Iyengar as to what security he would furnish for the loan and on receipt of his reply I shall address you again. In the meantime as he is in urgent need of funds to enlarge his business, the application may be submitted to Government

with your support.

I have the honour to be,
Sir,
Your most obedient Servant,

Deputy Commissioner,

To

15

M.Kantharaj Urs Esquire B.A.

Deputy Commissioner

Mysore District.

Respected Sir,

While yet a student I cherished idea of developing to the best of my ability some industry in my native place, Mysore, and thus be of some service to my country in serving my own ends. Somehow the Weaving Industry attracted my attention. After graduating, I went to Belgaum, Bombay, Parlakemedi, Salem and a few more places to study the working of the factories and also to undergo training in the general weaving branch. Then I returned to Mysore and started on the 18th of June 1909 a small factory in Weaver's lines, Mysore with 3 machines and 4 labourers. First I began manufacturing towels, bed-sheets and checks. Now I have 24 looms, 30 workmen and I manufacture towels, pancheys, bed-sheets, sarees, handkerchiefs etc., and I have also a number of school boys who are undergoing training for few hours every day.

As a rule weavers in Mysore produce sarees only of 20 and 30 counts. But in my factory sarees of 40's and 60's are generally woven and the demand for them is so great that I am not in a position to meet it though I have engaged in this branch alone more than 15 workmen. I am selling my sarees not only in our Province but also in outaway places like Madras, Anantapur and Hyderabad. The manufacture of towels, bed-sheets and handkerchiefs was newly introduced to Mysore by me. I am the only one in Mysore who is at present producing them on fly-shuttle. Many who learnt weaving in my factory are setting up independent cottage industries. You will thus be pleased to see that my factory has greatly improved the weaving industry and has benefitted much that section of the population. My factory is trying its best to train not only hereditary weavers but also people of other classes who show

a tendency to learn this industry and thus making a living by it . There might come a time when it would be possible for Mysore to produce several of the things of daily requirements that are now sent for from outside.

At present the different branches of the industry are located in different places in Weaver's lines, Mysore. If the accomadation be improved and the different branches are concentrated in one and the same place, more careful and efficient supervision would be exercised and still better results could be achieved. This is only possible if a factory costing about Rs.2000/ be built in the present locality where I am now carrying on my operations. As I find it difficult to take away my capital which I have invested in machines and yarns etc., I request a loan of Rs.2000/ without interest may be granted to me to construct buildings which are an immediate necessity to my factory. The above loan will be liquidated by me in annual instalments of Rs.200. As the needs are pressing you will be pleased to move the Government to comply with my request at an early date and thus give an impetus to an industry which needs much your kind help.

I remain

sir,

Your obedient servant
